relating to the establishment of English as the official language of Texas and the requirement that official acts of government be performed in English.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. The legislature finds and declares:

(1) the people of the United States have brought to this nation the cultural heritage of many nations;

(2) the people of the United States, despite their many differences, have lived together harmoniously and productively as citizens of one nation;

(3) the traditional and common language of the United States and of this state is English;

(4) a knowledge of the common language is essential to the full exercise of constitutional freedoms, the informed and knowledgeable empowerment of voters, citizen checks against government abuses, individual prosperity, and independence;

(5) the English language has been the strongest bond among citizens of this nation and has contributed substantially to national unity and societal cohesiveness;

(6) English has been this nation's language by custom only and warrants special legal protection;

(7) government has a fiduciary responsibility to the citizenry to ensure that it operates as efficiently as possible,

H.B. No. 301

1 and the growth of multiple language bureaucracies and printing  
2 represents an abrogation of this fiduciary responsibility; and

3 (8) this state, its political subdivisions, and the  
4 federal government have a responsibility to ensure that citizens  
5 have opportunities to learn English.

6 SECTION 2. Title 10, Government Code, is amended by adding  
7 Subtitle H to read as follows:

8 SUBTITLE H. OFFICIAL LANGUAGE FOR ACTS OF GOVERNMENT

9 CHAPTER 2351. ENGLISH AS OFFICIAL LANGUAGE OF GOVERNMENT AND FOR  
10 ACTS OF GOVERNMENT

11 Sec. 2351.001. DEFINITION. In this chapter, "official act  
12 of government" means:

13 (1) an action of this state or a political subdivision  
14 of this state that carries the full weight and authority of law;

15 (2) an official document recorded or first maintained  
16 on or after September 1, 2011, by this state or a political  
17 subdivision of this state for the public domain, including a tax  
18 record, professional license, deed, real estate record, or publicly  
19 probated will or other document of a court system; or

20 (3) a public proceeding of a governing body of this  
21 state or a political subdivision of this state held on or after  
22 September 1, 2011.

23 Sec. 2351.002. PURPOSE. It is the purpose of this chapter  
24 to preserve, protect, and strengthen the unifying role of English  
25 as the official language of this state.

26 Sec. 2351.003. ENGLISH AS OFFICIAL LANGUAGE. (a) English  
27 is the official language of this state and is the language of

H.B. No. 301

1 official acts of government.

2 (b) This state or a political subdivision of this state may  
3 not make any policy expressing a preference for any language other  
4 than English or diminishing or ignoring the unifying role of  
5 English as designated by this chapter, except as provided by  
6 Section 2351.004.

7 (c) An elected or appointed officer of this state or a  
8 political subdivision of this state shall take all reasonable steps  
9 to ensure that the role of English as the official language of this  
10 state is preserved and enhanced.

11 Sec. 2351.004. APPLICABILITY OF CHAPTER. This chapter does  
12 not:

13 (1) supersede contrary provisions imposed under  
14 federal law;

15 (2) prohibit the use of another language for the  
16 public safety, health, or justice;

17 (3) prohibit instruction in foreign language courses;

18 (4) prohibit instruction designed to aid students with  
19 limited English proficiency in their transition and integration  
20 into the education system;

21 (5) prohibit the promotion of international commerce  
22 or tourism; or

23 (6) prohibit a court or an administrative agency from  
24 admitting into evidence or relying on a record that is from another  
25 jurisdiction and originally written in another language, if the  
26 court or agency determines the record is necessary for a proceeding  
27 or hearing.

H.B. No. 301

1        Sec. 2351.005. PROHIBITED APPROPRIATION. The legislature  
2 or a governing body of a political subdivision of this state may not  
3 appropriate any money to promote the use of or demonstrate a  
4 preference for any language other than the official language,  
5 except as provided by Section 2351.004.

6        Sec. 2351.006. CONSTRUCTION OF CHAPTER. This chapter may  
7 not be:

8            (1) construed in any way to infringe on the rights of  
9 citizens, who have every right to choose their own primary  
10 language, in the use of language for private conduct; or

11           (2) used to dictate language policies for the  
12 operation and administration of organizations or businesses in the  
13 private sector.

14        SECTION 3. This Act takes effect September 1, 2011.

Re: Submission under Section 5, Voting Rights Act, of  
Senate Bill 14, Chapter 123, 82nd Legislature,  
2011; File No. 2011-2775.

Dear Mr. Herren:

In connection with the submission by the State of Texas for pre-clearance of Senate Bill 14, Chapter 123, 82<sup>nd</sup> Legislature 2011, which concerns photo identification for in person voting, you have asked us to provide the Department of Justice (DOJ) with additional information beyond that already provided by the State. Specifically, you have required Texas to identify:

The number of registered voters in Texas by race and Spanish surname within county of residence, who currently possess a Texas driver's license or other form of photo identification issued by [the Department of Public Safety (DPS)] that is current or has expired within sixty days.

By requesting Spanish surname data, the DOJ's request acknowledges that the DPS database does not accurately reflect the number of Hispanic voters in Texas who possess a driver's license or photo identification card. Nonetheless, in a good faith attempt to satisfy DOJ's request, the State has compiled the requested data--despite the State's reservations about the reliability of that data.

Shortly after passage of the federal Voting Rights Act in 1965, the State of Texas adopted a policy to not require Texans provide their race or ethnicity when registering to vote. As a result, Texas does not maintain any race or ethnicity data for its list of registered voters. As explained in a previous communication with your office, Texas' decision to eliminate race as a factor in its voter registration process makes it impossible to generate fully reliable data in response to your request. Nonetheless, the State of Texas and the agencies working to respond to this request—including the Secretary of State's Office, The Department of Public Safety, and the Attorney General's Office—have assembled data as directed by you.

Mr. T. Christian Herren, Jr.

Page 2

DOJ's directive that the State of Texas identify Hispanic voters by matching voter registration lists with lists of licensed drivers and personal ID holders also produces inaccurate and unreliable data because prior to May 2010 the Department of Public Safety did not list Hispanic as a race that driver's license and personal identification applicants could select. Prior to May 2010, the DPS followed federal Office of Management and Budget guidelines, which does not categorize Hispanic as a "race." Thus, in following DOJ's directive to match voter registration lists with lists of driver's license and ID holders produces anomalous and highly misleading results. Due to the recent addition of a "Hispanic" field to the driver's license and personal ID application, the number of Hispanic ID-holders in Texas is exponentially higher than the DPS's raw data indicates.

The following summarizes factors that raise questions about the reliability of the data compiled in response to the DOJ's request and reveals why that data very likely undercounts the number of voters--minority and otherwise--who possess a DPS-issued photo identification:

- Voters are not asked to provide their race or ethnicity when registering to vote in Texas.
- DPS previously used the following racial classifications on all ID applications: American Indian/Alaskan Native, Asian/Pacific Islander, Black, Other, and White. Not until May 2010 did ID applications at DPS offices across the State contain a field for "Hispanic."
- It is impossible to identify which racial classifications Texans of Hispanic descent selected on ID applications completed prior to May 2010. For this reason, DPS's data for racial classifications other than Hispanic are no doubt significantly distorted.
- In attempting to match names between Texas's race-neutral list of registered voters and the DPS's list of driver's license and ID holders, a number of very common irregularities causes numerous incorrect "no-match" results. These include name changes, inconsistent use of nicknames or initials, inconsistent placement of suffixes such as "Jr." or "III," misspellings, transposed or illegible digits in the ID number provided by the voter, clerical data-entry errors. Simply put, these databases were not designed to be merged. Due to the many difficulties associated with attempting to merge the two databases, the number of "no-match" entries reflected in our response is significantly higher than the actual number of registered voters in Texas who lack an ID.
- The Hispanic-surname analysis you request is an imprecise substitute for accurate racial data. It is impossible to know whether a surname is representative of a voter's race, or the result of any number of legal name changes resulting from actions such as marriage, adoption, or a legal change of identity.. Indeed, in merging the State's list of Spanish-surnamed registered voter with DPS records containing racial classification data, many individual Texans have mismatched ethnicities between the two databases.
- While we have attempted to respond to your directive, given the data available to us, we note that your directive does not take into account the number of registered voters in Texas who possess another form of photo identification that can be used for in-person voting under Senate Bill 14, including a Concealed Carry Permit issued by DPS, a United States Passport, a U.S. Certificate of citizenship, or a United States Military Identification card.
- Further, your request does not account for Texans who will obtain a free Election Identification Card from DPS.

Mr. T. Christian Herren, Jr.  
Page 3

Despite these difficulties, all of the agencies involved in this endeavor have made a good faith effort to respond to your request and to cooperate throughout the administrative preclearance process so that preclearance and implementation of Senate Bill 14 can occur as soon as possible. Furthermore, in spite of these difficulties and the resulting unreliability of the numbers, you have indicated that you will deny preclearance of Senate Bill 14 if our office fails to respond to your most recent request for additional information. Therefore, in response to your request, the State of Texas provides the attached Exhibits described below. For reasons stated above and in previous communications, this data does not provide an accurate picture of the racial makeup of registered voters or ID holders in Texas, in large part because of the State of Texas' decision to eliminate race as a factor in its voter registration process. However, these Exhibits represent the State's good-faith attempt to respond to your directive.

Column A of Exhibit A is an updated count of registered voters by county in the State of Texas.

Column B of Exhibit A provides the total number of registered voters by county who provided a DPS ID number to us when they registered to vote, plus those of the remaining registered voters whom we were able to match to a high degree of confidence with an entry in the DPS database, which includes racial identification information. As explained above, Column B significantly undercounts the actual number of registered voters with an ID because of the many difficulties in accurately matching the race-neutral registered voter list to the DPS database that includes racial identification information. The numbers in Column B, however, are the closest that we can get to an accurate number given the data limitations.

Column C of Exhibit B contains the number of registered voters by county that we were able to match to a high degree of confidence with an entry in the DPS database. As explained above, Column C significantly undercounts the actual number of registered voters with an ID because of the many difficulties in accurately matching the race-neutral registered voter list to the DPS database that includes racial classification information. It also significantly undercounts the number of registered voters with an ID because it does not include voters who provided an ID when they registered to vote but who, for whatever reason, could not be matched with a high degree of confidence to an entry in the DPS database containing racial identification information. As a result, the number in Column C is lower than, and less accurate than, the number in Column B for the same county. Given the data limitations explained above, however, this is the only count of registered voters for which we can provide information on race or ethnicity.

Column D of Exhibit B contains the racial information provided to DPS for all registered voters counted in Column C of Exhibit B. For the reasons explained above, this data is not fully reliable and is misleading — due to DPS's evolving methods of collecting information on race and ethnicity. (In addition, Column C of Exhibit B significantly undercounts the number of registered voters who have an ID.) Because of limitations in the data, however, we were forced to use the racial breakdown of this group as the basis for estimating the racial breakdown of the more accurate (though still incomplete) count of registered voters with ID listed in Column B of Exhibit A.

Column E of Exhibit A is an estimation of the racial breakdown of all voters counted in Column B of Exhibit A. To reach this estimate, we applied the racial percentages by county found in Column D of Exhibit B to the more accurate (though still incomplete) count of registered voters with ID found in Column B of Exhibit A.

Mr. T. Christian Herren, Jr.

Page 4

Column F of Exhibit A contains Spanish-surname data for the registered voters by county contained in Column B of Exhibit A. We previously provided you with Spanish-surname data for all registered voters. We note that the Spanish-surname data has flaws as a proxy for racial information and that in merging the State's list of Spanish-surnamed registered voters with DPS records containing racial identification data, many individual Texans have mismatched ethnicities between the two databases.

The attached Exhibits represent the good-faith effort of the State of Texas to respond to your most recent request for information despite the many limitations in the data available to us. Please do not hesitate to contact me with any questions or concerns about this response.

Sincerely,

**Notes:**

For each ID/Database combination outlined above all specified matching queries should be run. Based on the matching algorithms, if a record (registrant) in the TEAM database matches a record in the database being searched, then this will be denoted as a match (For any given type of SB14 ID, a registrant will be determined to have valid ID if matched by any of the matching algorithms outlined). New fields will be added to the TEAM database to denote the presence of a match for each database/ID/query. In addition to searching for ID possession, records in the TEAM database will be flagged to indicate the registrant is exempt due to the presence of a qualified disability. (Disclaimer: The matching algorithms here denoted are based on data fields currently known to populate the listed databases).

Explanation of matching queries to be run (numbers correspond to matching algorithms in table above):

1. Records will be matched using the last four digits of the Social Security Number (where available) along with the last name and date of birth fields.
2. Records will be matched using the full Social Security Number field (where available).
3. Records will be matched using the first name, last name, and date of birth fields.
4. Records will be matched using the first name, middle initial, last name, and date of birth fields.
5. Records will be matched using the Texas Driver's License Number field (where available).

**DPS RESPONSES TO  
WRITTEN DEPOSITION QUESTIONS PURSUANT TO RULE 31  
REGARDING SPECIFIED TOPICS FROM THE UNITED STATES' NOTICE  
OF RULE 30(b)(6) DEPOSITION OF THE TEXAS DEPARTMENT OF  
PUBLIC SAFETY**

The responses to questions 1-277 and 284-303 were prepared by Sheri Gipson, Senior Manager, Records and Enforcement, Customer Support, Driver License Division. The background information requested regarding Ms. Gipson was provided during her deposition taken by the Plaintiffs on June 9, 2014.

The responses to questions 278-273 were prepared by John Crawford, Applications Manager, Licensing Services, Information Technology Division. The background information requested regarding Mr. Crawford was provided during his deposition taken by the Plaintiffs on July 30, 2014.

**Questions**

**Topics 8-11**

1. Describe the purpose of the card status field with respect to the DPS database of Texas driver license records.

RESPONSE: The Driver License System (DLS) is built based on person records. Within this record, the person could hold both a Texas driver license and a Texas Identification Card. While there are common data fields that apply to the person and both cards (name and address for example), card status is designed to identify administrative actions that only apply to one card, not the entire person record.

2. Yes or no, does the single fact of having any one of the following card statuses with respect to a Texas driver license record require the license holder to physically give up possession his or her Texas driver license card to DPS:

- Purged
- Revoked Sex Offender
- Voluntary Surrender
- Voluntary Surrender CSO
- Denied Texas Limb Waiver
- Denied Texas Vision Waiver
- Expired Limb Waiver
- Expired Vision Waiver
- Ignition Interlock Required
- Limb Waiver Needed
- Required Downgrade
- Restriction Requires Review
- Verify Issue Former State
- Vision Waiver Needed
- Voluntary Surrender Insurance
- Voluntary Surrender Medical
- Returned By Post Office
- Items Surrendered
- Documents Needed

RESPONSE: No, there is no requirement that a license holder physically give up possession of a Texas driver license if one of these statuses is listed in the Card Status field. However, a card status of Voluntary Surrender, Voluntary Surrender CSO, Voluntary Surrender Insurance and Voluntary Surrender Medical means the customer has voluntarily surrendered their card.

3. If the answer to question 2 above is yes, please identify which, if any, of the above-listed driver license card statuses require the license holder to physically give up possession his or her Texas driver license card to DPS.

RESPONSE: There is no requirement that a license holder physically give up possession of a Texas driver license if one of these statuses is listed in the Card Status field. However, a card status of Voluntary Surrender, Voluntary Surrender CSO, Voluntary Surrender Insurance and Voluntary Surrender Medical means the customer has voluntarily chosen to surrender their card

4. Please identify which, if any, of the above-listed driver license card statuses indicate that the license holder does not have actual possession his or her Texas driver license card.

RESPONSE: The Department cannot state whether or not a person has actual possession of his or her Texas driver license.

5. Please identify which, if any, of the above-listed card statuses is apparent on the face of the Texas driver license card.

RESPONSE: None.

6. Please state all reasons why a Texas driver license record could have “Purged” as a card status.

RESPONSE: DLS is based on a person record, so only the driver license record within the person record would be marked with a status of “purged”. This can be added if the card was created as a test card or the card data is deemed as no longer useful.

7. Are Texas driver license records that have “Purged” as a card status ever removed or erased from DPS driver license database?

RESPONSE: Based on current record retention requirements, driver license application data is maintained for 125 years. This action removes the card data from the basic system view in the driver license system (DLS), but the information remains in the database tables.

8. If driver license records with “Purged” listed as the card status are removed or erased from the DPS driver license database, please explain the process for the removal or erasure, including how often such removals or erasures occur.

RESPONSE: This information is not removed or erased from the database tables.

9. When a driver license has a card status of “Purged,” is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: The person would not be required to surrender the card when this status is added.

10. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Purged” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: Generally when this status is added to the card, there is no actual driver license card. It was either not produced or has been expired for more than two years. If a card does exist, it would not be returned to the Department.

11. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Purged” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not

be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None.

12. Can a driver license currently marked with a card status of “Purged” still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: Not for driving purposes. The card was either created as a test or has been expired for more than two years.

13. Please list and explain all reasons why a card status of “Purged” could be removed from a driver license record.

RESPONSE: This status would only be removed if it was placed on the card in error. This action removes the card status from the basic system view of the record, but the information relating to the addition and removal of this status is maintained in the DLS database tables.

14. When a card status of “Purged” that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

15. Once the card status “Purged” is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes. There is no requirement that a license holder physically give up possession of a Texas driver license if one of these statuses is listed in the Card Status field.

16. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of “Purged,” but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances; the status does not require surrender of the driver license card.

17. When a driver license has a card status of “Revoked Sex Offender,” is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: Yes.

18. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Revoked Sex Offender" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: The license holder would be permitted to retain possession of the driver license card with this status.

19. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Revoked Sex Offender" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None.

20. Can a driver license currently marked with a card status of "Revoked Sex Offender" still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: Not for driving purposes. The driving privileges are revoked until the customer complies with statute by applying for an updated driver license card. It is valid for identity purposes as long as it is not expired or is within allowable limits of expiration and has not been cancelled due to fraud.

21. Please list and explain all reasons why a card status of "Revoked Sex Offender" could be removed from a driver license record.

RESPONSE: The card status is removed once the customer has complied with statute by applying for an updated card, when the customer is no longer required to comply with registration requirements or when the status was placed on the record in error. This action removes the card status from the basic system view of the record, but the information relating to the addition and removal of this status is maintained in the DLS database tables.

22. When a card status of "Revoked Sex Offender" that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

23. Once the card status "Revoked Sex Offender" is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes.

24. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of “Revoked Sex Offender,” but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances; the status does not require surrender of the driver license card.

25. Please state all reasons why a Texas driver license record could have “Voluntary Surrender” as a card status.

RESPONSE: This status is placed on the card when the customer has chosen to voluntarily surrender the driver license card and their driving privileges. The Department does not require the customer to tell us why they are surrendering the driver license card. As such, it is not possible to list all reasons why a record could have this card status listed.

26. When a driver license has a card status of “Voluntary Surrender,” is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: The card status of “Voluntary Surrender” is entered into the record after the customer has voluntarily surrendered possession of the driver license card to the Department. This is merely the documentation in the record of an event initiated by the customer. This does not involve the element of the license holder being “permitted” to retain possession of the card.

27. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Voluntary Surrender” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None.

28. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Voluntary Surrender” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: If a customer chooses to voluntarily surrender possession of their driver license they would no longer retain possession.

29. Can a driver license currently marked with a card status of “Voluntary Surrender” still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: If the driver license card is marked with a card status of voluntary surrender and there is no removal date, the card is not valid for driving purposes.

30. Please list and explain all reasons why a card status of “Voluntary Surrender” could be removed from a driver license record.

RESPONSE: When the applicant chooses to come in and reapply for a driver license or if it was placed on the record in error.

31. When a card status of “Voluntary Surrender” that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes the removal of the card status would result in the reissuance of the driver license card; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

32. Once the card status “Voluntary Surrender” is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes.

33. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of “Voluntary Surrender,” but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: If a license holder has voluntarily surrendered possession of the card then DPS would have physical possession of the card. If the license holder decides to reinstate the license then the license holder would have possession of the card.

34. Please state any and all reasons why a Texas driver license record could have a current card status of “Voluntary Surrender” while not having any value entered in the License Surrendered field.

RESPONSE: A driver license record may or may not have a value in both the “license surrendered” field and a card status of “voluntary surrender”, but the two are not connected – see response to question number 35.

35. Does having “Voluntary Surrender” indicated in the card status field indicate something different than having a value entered in the License Surrendered field? If so, what is the difference between the two?

RESPONSE: Yes. Voluntary surrender card status is added to the record based on a customer's action to voluntarily surrender their driver license card and driving privileges. The license surrendered field is an informational field that is part of an administrative license revocation action. This field has 3 options, (1) license surrendered (2) license not surrendered or (3) unknown.

36. What does it mean for a Texas driver license record to have a card status of "Voluntary Surrender CSO"?

RESPONSE: Texas statute, Article 62 of the Code of Criminal Procedure, requires individuals to maintain a valid driver license or identification card. When a customer possesses both a driver license and identification card, they sometimes elect to only maintain one card. Placing this status on the 2<sup>nd</sup> card type maintains the record of the 2<sup>nd</sup> card but prohibits the driver license system processes from applying revocation notices and enforcement actions for non-compliance.

37. What does "CSO" in the above card status stand for?

RESPONSE: Classified Sex Offender.

38. Please state all reasons why a Texas driver license record could have "Voluntary Surrender CSO" as a card status.

RESPONSE: When the customer has both a Texas driver license and a Texas identification card and they choose to only maintain one card type.

39. When a driver license has a card status of "Voluntary Surrender CSO," is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: The card status of "Voluntary Surrender Medical" is entered into the record after the customer has voluntarily surrendered possession of the driver license card to the Department. This is merely the documentation in the record of an event initiated by the customer. This does not involve the element of the license holder being "permitted" to retain possession of the card.

40. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Voluntary Surrender CSO" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None

41. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Voluntary Surrender CSO" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: Anytime a customer chooses to voluntarily surrender physical possession of their driver license card.

42. Can a driver license currently marked with a card status of "Voluntary Surrender CSO" still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: If the driver license card is marked with a card status of voluntary surrender CSO and there is no removal date, the card is not valid for driving purposes.

43. Please list and explain all reasons why a card status of "Voluntary Surrender CSO" could be removed from a driver license record.

RESPONSE: When an applicant chooses to come in and reapply for a driver license or if it was placed on the record in error.

44. When a card status of "Voluntary Surrender CSO" that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes the removal of the card status would result in the reissuance of the driver license card; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

45. Once the card status "Voluntary Surrender CSO" is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes

46. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of "Voluntary Surrender CSO," but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: If a license holder has voluntarily surrendered possession of the card then DPS would have physical possession of the card. If the license holder decides to

reinstate the license then the license holder would have possession of the card.

47. Please state any and all reasons why a Texas driver license record could have a current card status of “Voluntary Surrender CSO” while not having any value entered in the License Surrendered field.

RESPONSE: A driver license record may or may not have a value in both the “Voluntary Surrender CSO” field and a card status of “License surrendered”, but the two are not connected – see response to question number 48.

48. Does having “Voluntary Surrender” indicated in the card status field indicate something different than having a value entered in the License Surrendered field? If so, what is the difference between the two?

RESPONSE: Yes. Voluntary Surrender CSO card status is added to the record based on a customer’s action to voluntarily surrender their driver license card and driving privileges. The license surrendered field is an informational field that is part of an administrative license revocation action. This field has 3 options, (1) license surrendered (2) license not surrendered or (3) unknown.

49. What is a “Texas Limb Waiver”?

RESPONSE: This waiver is granted to a Texas Commercial driver who does not meet the physical requirements under the code of federal regulations, administered by the Federal Motor Carrier Safety Administration (FMCSA) and allows that driver to operate a commercial motor vehicle within the State of Texas.

50. What does it mean for a Texas driver license record to have a card status of “Denied Texas Limb Waiver”?

RESPONSE: This customer has applied for a waiver and has been denied based on a review of the application and their driver record.

51. Please state all reasons why a Texas driver license record could have “Denied Texas Limb Waiver” as a card status.

RESPONSE: See response to question number 50.

52. When a driver license has a card status of “Denied Texas Limb Waiver,” is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: Yes

53. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Denied Texas Limb Waiver” is

permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: The license holder would be permitted to retain possession of the driver license card with this status.

54. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Denied Texas Limb Waiver" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None

55. Can a driver license currently marked with a card status of "Denied Texas Limb Waiver" still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: The driver license is considered valid for operating non-commercial vehicles and is valid for identity purposes as long as it is not expired or is within allowable limits of expiration and has not been cancelled due to fraud.

56. Please list and explain all reasons why a card status of "Denied Texas Limb Waiver" could be removed from a driver license record.

RESPONSE: If the driver license is changed from a commercial driver license to non-commercial driver license, if their physical status changes, if their application is eligible for review or if it was entered in error.

57. When a card status of "Denied Texas Limb Waiver" that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion

58. Once the card status "Denied Texas Limb Waiver" is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes. This card status does not have an effect on possession of the license.

59. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of "Denied Texas Limb Waiver," but

later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances; the status does not require surrender of the driver license card.

60. What is a "Texas Vision Waiver"?

RESPONSE: This waiver is granted to a Texas Commercial driver who does not meet the vision requirements under the code of federal regulations, administered by the Federal Motor Carrier Safety Administration (FMCSA) and allows that driver to operate a commercial motor vehicle within the State of Texas.

61. What does it mean for a Texas driver license record to have a card status of "Denied Texas Vision Waiver"?

RESPONSE: The customer has applied for a waiver and has been denied based on a review of the application and their driver record.

62. Please state all reasons why a Texas driver license record could have "Denied Texas Vision Waiver" as a card status.

RESPONSE: See response to question number 61.

63. When a driver license has a card status of "Denied Texas Vision Waiver," is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: Yes.

64. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Denied Texas Vision Waiver" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: The license holder would be permitted to retain possession of the driver license card with this status.

65. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Denied Texas Vision Waiver" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None.

66. Can a driver license currently marked with a card status of “Denied Texas Vision Waiver” still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: The driver license is considered valid for operating non-commercial vehicles and is valid for identity purposes as long as it is not expired or is within allowable limits of expiration and has not been cancelled due to fraud.

67. Please list and explain all reasons why a card status of “Denied Texas Vision Waiver” could be removed from a driver license record.

RESPONSE: If the driver license is changed from a commercial driver license to non-commercial driver license, if their visual status changes, if their application is eligible for review or if it was entered in error.

68. When a card status of “Denied Texas Vision Waiver” that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

69. Once the card status “Denied Texas Vision Waiver” is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes.

70. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of “Denied Texas Vision Waiver,” but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances; the status does not require surrender of the driver license card.

71. How often do Limb Waivers expire?

RESPONSE: Limb waivers are issued up to a maximum of 2 years.

72. How often to Vision Waivers expire?

RESPONSE: Vision waivers are issued up to a maximum of 2 years.

RESPONSE: The license holder would be permitted to retain possession of the driver license card with this status.

141. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Vision Waiver Needed" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None

142. Can a driver license currently marked with a card status of "Vision Waiver Needed" still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: Driving privileges are valid for 60 days from the date the status is added to the driver license card. If the customer fails to obtain an updated driver license card within that time period, driving privileges are cancelled. It is valid for identity purposes as long as it is not expired or is within allowable limits of expiration and has

not been cancelled due to fraud.

143. Please list and explain all reasons why a card status of "Vision Waiver Needed" could be removed from a driver license record.

RESPONSE: If the driver license is changed from a commercial driver license to non-commercial driver license, if the updated driver license card is obtained, or if it was entered in error.

144. When a card status of "Vision Waiver Needed" that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

145. Once the card status "Vision Waiver Needed" is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes.

146. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of "Vision Waiver Needed," but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances; the status does not require surrender of the driver license card.

147. What does it mean for a Texas driver license record to have a card status of "Voluntary Surrender Insurance"?

RESPONSE: This status is placed on the card when the customer has chosen to voluntarily surrender the driver license card and their driving privileges for purposes of insurance.

148. Please state all reasons why a Texas driver license record could be marked with "Voluntary Surrender Insurance" as a card status.

RESPONSE: See response to question number 147.

149. When a driver license has a card status of "Voluntary Surrender Insurance," is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: The card status of “Voluntary Surrender Insurance” is entered into the record after the customer has voluntarily surrendered possession of the driver license card to the Department. This is merely the documentation in the record of an event initiated by the customer. This does not involve the element of the license holder being “permitted” to retain possession of the card.

150. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Voluntary Surrender Insurance” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None.

151. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Voluntary Surrender Insurance” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: Anytime a customer chooses to voluntarily surrender their driver license card.

152. Can a driver license currently marked with a card status of “Voluntary Surrender Insurance” still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: If the driver license card is marked with a card status of voluntary surrender insurance and there is no removal date, the card is not valid for driving purposes and the driver license card would have been voluntarily surrendered.

153. Please list and explain all reasons why a card status of “Voluntary Surrender Insurance” could be removed from a driver license record.

RESPONSE: When the applicant chooses to come in and reapply for a driver license or if it was placed on the record in error.

154. When a card status of “Voluntary Surrender Insurance” that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes the removal of the card status would result in the reissuance of the driver license card; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

155. Once the card status “Voluntary Surrender Insurance” is removed from a non-expired

driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes.

156. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of “Voluntary Surrender Insurance,” but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: If a license holder has voluntarily surrendered possession of the card then DPS would have physical possession of the card. If the license holder decides to reinstate the license then the license holder would have possession of the card.

157. Please state any and all reasons why a Texas driver license record could have a current card status of “Voluntary Surrender Insurance” while not having any value entered in the License Surrendered field.

RESPONSE: A driver license record may or may not have a value in both the “Voluntary Surrender Insurance” field and a card status of “License Surrendered”, but the two are not connected – see response to number 158.

158. Does having “Voluntary Surrender Insurance” indicated in the card status field indicate something different than having a value entered in the License Surrendered field? If so, what is the difference between the two?

RESPONSE: Yes. Voluntary Surrender Insurance card status is added to the record based on a customer’s action to voluntarily surrender their driver license card and driving privileges. The license surrendered field is an informational field that is part of an administrative license revocation action. This field has 3 options, (1) license surrendered (2) license not surrendered or (3) unknown.

159. What does it mean for a Texas driver license record to have a card status of “Voluntary Surrender Medical”?

RESPONSE: When it is determined that there is a potential medical issue that will affect the ability of an individual to safely operate a motor vehicle, there is a process that the customer must go through to maintain their driver license and driving privileges. If they decide that they do not want to complete that process and voluntarily surrender the driver license card and driving privileges, this status is placed on the driver license card.

160. Please state all reasons why a Texas driver license record could be marked with “Voluntary Surrender Medical” as a card status.

RESPONSE: See response to question number 159.

161. When a driver license has a card status of “Voluntary Surrender Medical,” is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: The card status of “Voluntary Surrender Medical” is entered into the record after the customer has voluntarily surrendered possession of the driver license card to the Department. This is merely the documentation in the record of an event initiated by the customer. This does not involve the element of the license holder being “permitted” to retain possession of the card.

162. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Voluntary Surrender Medical” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None.

163. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Voluntary Surrender Medical” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: Anytime a customer chooses to voluntarily surrender their driver license card.

164. Can a driver license currently marked with a card status of “Voluntary Surrender Medical” still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: If the driver license card is marked with a card status of voluntary surrender and there is no removal date, the card is not valid for driving purposes and the driver license card would have been voluntarily surrendered.

165. Please list and explain all reasons why a card status of “Voluntary Surrender Medical” could be removed from a driver license record.

RESPONSE: When an applicant chooses to come in and reapply for a driver license or if it was placed on the record in error.

166. When a card status of “Voluntary Surrender Medical” that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes the removal of the card status may result in the reissuance of the driver license card; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

167. Once the card status “Voluntary Surrender Medical” is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes.

168. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of “Voluntary Surrender Medical,” but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: If a license holder has voluntarily surrendered possession of the card then DPS would have physical possession of the card. If the license holder decides to reinstate the license then the license holder would have possession of the card.

169. Please state any and all reasons why a Texas driver license record could have a current card status of “Voluntary Surrender Medical” while not having any value entered in the License Surrendered field.

RESPONSE: A driver license record may or may not have a value in both the “license surrendered” field and a card status of “voluntary surrender medical”, but the two statuses are not connected – see response to question number 170.

170. Does having “Voluntary Surrender Medical” indicated in the card status field indicate something different than having a value entered in the License Surrendered field? If so, what is the difference between the two?

RESPONSE: Yes. Voluntary Surrender Medical card status is added to the record based on a customer’s action to voluntarily surrender their driver license card and driving privileges. The License Surrendered field is an informational field that is part of an administrative license revocation action. This field has 3 options, (1) license surrendered (2) license not surrendered or (3) unknown.

171. What does it mean for a Texas driver license record to have a card status of “Returned by Post Office”?

RESPONSE: The post office returned a driver license card that was mailed to the customer by the Department.

172. Please state all reasons why a Texas driver license record could be marked with

“Returned by Post Office” as a card status.

RESPONSE: See response to question number 171.

173. When a driver license has a card status of “Returned by Post Office,” is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: The actual card is returned to the Department and destroyed, so possession of that card would not be possible, but the customer could still potentially have possession of the temporary driving permit or a previous or subsequently issued driver license card. That information cannot be determined from this particular field.

174. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Returned by Post Office” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: See response to question number 173.

175. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Returned by Post Office” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: Since the card was returned by the post office, the customer would not have possession of that particular driver license card.

176. Can a driver license currently marked with a card status of “Returned by Post Office” still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: Since the card was returned by the post office, the customer would not have possession of that particular driver license card, but driving privileges would still be valid.

177. Please list and explain all reasons why a card status of “Returned by Post Office” could be removed from a driver license record.

RESPONSE: If it was placed on the record in error.

178. When a card status of “Returned by Post Office” that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect as the card status is not removed; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

179. Once the card status "Returned by Post Office" is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: This status is not removed, it is maintained for administrative reasons and to determine the number of times a driver license card from a particular transaction has been remade and re-mailed.

180. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of "Returned by Post Office," but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances, the status indicates the card was returned and destroyed.

181. What does it mean for a Texas driver license record to have a card status of "Items Surrendered"?

RESPONSE: This status is placed on a driver license card when a driver license card is surrendered to a law enforcement agency or court and the card was returned to the Department.

182. Please state all reasons why a Texas driver license record could be marked with "Items Surrendered" as a card status.

RESPONSE: See response to question number 181.

183. When a driver license has a card status of "Items Surrendered," is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: The driver license card has been surrendered and destroyed, so the customer would not have physical possession of that card, but the customer could still potentially have possession of a temporary driving permit or a previous or subsequently issued driver license card. That information cannot be determined from an entry in this particular field.

184. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Items Surrendered" is permitted to

retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: See response to question number 183.

185. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of "Items Surrendered" is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: Possession would be permissible, but since the card was surrendered and destroyed, the customer would not have possession of that particular driver license card. However, the customer could still potentially have possession of a temporary driving permit or a previous or subsequently issued driver license card.

186. Can a driver license currently marked with a card status of "Items Surrendered" still be a valid license according to DPS? Please provide the basis for the response.

RESPONSE: Since the card was surrendered, the customer would not have possession of that particular driver license card, but driving privileges would still be valid unless there is an active enforcement action that has removed driving privileges.

187. Please list and explain all reasons why a card status of "Items Surrendered" could be removed from a driver license record.

RESPONSE: If the status was entered on the record in error.

188. When a card status of "Items Surrendered" that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect as the card status is not removed; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

189. Once the card status "Items Surrendered" is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: The status is not removed, it is kept for administrative purposes; however, the driver license card can be reissued providing there is not an active enforcement action that would prohibit the issuance of a driver license.

190. If physical possession of a driver license as between the license holder and DPS varies

for licenses that at one time had a card status of “Items Surrendered,” but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances, the status indicates the card was surrendered and destroyed.

191. What does it mean for a Texas driver license record to have a card status of “Documents Needed”?

RESPONSE: This status is added to the driver license card when it is determined that some type of documentation is needed before the card can be reissued again. The details contained in other fields indicate what information is needed and who to contact for assistance. It can be anything from the need for a particular form to be completed and/or signed or a request for additional documentation related to identity, citizenship, residency, etc.

192. Please state all reasons why a Texas driver license record could be marked with “Documents Needed” as a card status.

RESPONSE: See response to question number 191.

193. When a driver license has a card status of “Documents Needed,” is the license holder permitted, under all applicable rules and procedures, to retain physical possession of the driver license card?

RESPONSE: Yes.

194. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Documents Needed” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would be permissible for the license holder to retain possession of the driver license card.

RESPONSE: The license holder would be permitted to retain possession of the driver license card with this status.

195. If it varies, under all applicable rules and procedures, as to whether or not the license holder of a driver license with a card status of “Documents Needed” is permitted to retain physical possession of the driver license card, identify all circumstances in which it would not be permissible for the license holder to retain possession of the driver license card.

RESPONSE: None.

196. Can a driver license currently marked with a card status of “Documents Needed” still

be a valid license according to DPS? Please provide the basis for the response.

Yes. It is considered valid for driving privileges as long as there are no other actions on the driver record that would affect driving privileges. It is valid for identity purposes so long as it is not expired or is within allowable limits of expiration and has not been cancelled due to fraud.

197. Please list and explain all reasons why a card status of "Documents Needed" could be removed from a driver license record.

RESPONSE: Once the customer has complied by providing the document or if it was placed on the record in error.

198. When a card status of "Documents Needed" that was once placed on a driver license record is removed, does the removal of that card status have any effect on whether the driver is legally entitled to physically possess the license?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

199. Once the card status "Documents Needed" is removed from a non-expired driver license record, would the license holder be permitted to have physical possession of the license?

RESPONSE: Yes.

200. If physical possession of a driver license as between the license holder and DPS varies for licenses that at one time had a card status of "Documents Needed," but later had that card status removed, please explain when DPS would possess the licenses versus when the license holder would possess the license.

RESPONSE: There are no variances; the status does not require surrender of the driver license card.

### **Topics 12-15**

201. What is the purpose of the card status field with respect to the DPS database of Texas ID card records?

RESPONSE: The Driver License System is built based on person records. Within this record, the person could hold both a Texas driver license and a Texas Identification Card. While there are common data fields that apply to the person and both cards (name and address for example), card status is designed to identify administrative actions that only apply to one card, not the entire person record.

202. Yes or no, does having any one of the following card statuses with respect to a Texas ID card record require the license holder to physically give up possession his or her Texas ID card to DPS:

- Purged
- Revoked Sex Offender
- Voluntary Surrender
- Voluntary Surrender CSO
- Returned By Post Office
- Items Surrendered
- Documents Needed

No, there is no requirement that a license holder physically give up possession of a Texas personal identification card if one of these statuses is listed in the Card Status field. However, a card status of Voluntary Surrender or Voluntary Surrender CSO means the customer has voluntarily surrendered their card.

203. If the answer to question 202 above is yes, please identify which, if any, of the above-listed ID card statuses require the ID card holder to physically give up possession his or her Texas ID card to DPS.

RESPONSE: There is no requirement that a license holder physically give up possession of a Texas personal identification card if one of these statuses is listed in the Card Status field. However, a card status of Voluntary Surrender or Voluntary Surrender CSO means the customer has voluntarily chosen to surrender their card.

204. Please identify which, if any, of the above-listed card statuses indicate that the ID card holder does not have actual possession his or her Texas ID card.

RESPONSE: Voluntary Surrender and Voluntary Surrender CSO.

205. Please identify which, if any, of the above-listed card statuses is apparent on the face of the Texas ID card.

RESPONSE: None.

206. What does it mean for a Texas ID card record to have a card status of "Purged"?

RESPONSE: When this status is added to an identification card record, there are system processes that either initiates notification to other users that the card information is marked for purge or to prohibit certain system functions from processing using that specific card data.

207. Please state all reasons why a Texas ID card record could be marked with "Purged" as a card status.

RESPONSE: DLS is based on a person record, so only the identification card record within the person record would be marked with a status of “purged”. This can be added if the card was created as a test card or the card data is deemed as no longer useful.

208. When a Texas ID card has a card status of “Purged,” is the ID holder permitted, under all applicable rules and procedures, to retain physical possession of the ID card?

RESPONSE: The person would not be required to surrender the card when this status is added.

209. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID with a card status of “Purged” is permitted to retain physical possession of the ID card, identify all circumstances in which it would be permissible for the ID holder to retain possession of the ID card.

RESPONSE: Generally when this status is added to the card, there is no actual identification card. It was either not produced or has been expired for more than two years. If a card does exist, it would not be returned to the Department.

210. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID card with a card status of “Purged” is permitted to retain physical possession of the ID card, identify all circumstances in which it would not be permissible for the ID holder to retain possession of the ID card.

RESPONSE: None

211. Can an ID currently marked with a card status of “Purged” still be a valid ID according to DPS? Please provide the basis for the response.

RESPONSE: Typically this card was either created as a test or has been expired for more than two years so it would not be considered as a valid ID.

212. Please list and explain all reasons why a card status of “Purged” could be removed from an ID card record.

RESPONSE: This status would only be removed if it was placed on the card in error. This action removes the card status from the basic system view of the record, but the information relating to the addition and removal of this status is maintained in the DLS database tables.

213. When a card status of “Purged” that was once placed on an ID card record is removed, does the removal of that card status have any effect on whether the ID holder is legally entitled to physically possess the ID card?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

214. Once the card status “Purged” is removed from a non-expired ID card, would the ID holder be permitted to have physical possession of the ID card?

RESPONSE: Yes.

215. If physical possession of a driver license as between the ID holder and DPS varies for ID cards that at one time had a card status of “Purged,” but later had that card status removed, please explain when DPS would possess the ID card versus when the ID holder would possess the ID card.

RESPONSE: There are no variances; the status does not require surrender of the identification card.

216. What does it mean for a Texas ID card record to have a card status of “Revoked Sex Offender”?

RESPONSE: This is applied to an identification card when the customer has not complied with Code of Criminal Procedure Article 62 which requires them to maintain a valid up to date driver license or identification card.

217. Please state all reasons why a Texas ID card record could be marked with “Revoked Sex Offender” as a card status.

RESPONSE: See response to question number 216.

218. When a Texas ID card has a card status of “Revoked Sex Offender,” is the ID holder permitted, under all applicable rules and procedures, to retain physical possession of the ID card?

RESPONSE: Yes.

219. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID with a card status of “Revoked Sex Offender” is permitted to retain physical possession of the ID card, identify all circumstances in which it would be permissible for the ID holder to retain possession of the ID card.

RESPONSE: The customer would be permitted to retain possession of the identification card with this status.

220. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID card with a card status of “Revoked Sex Offender” is permitted to retain physical possession of the ID card, identify all circumstances in which it would not be permissible for the ID holder to retain possession of the ID card.

RESPONSE: None.

221. Can an ID currently marked with a card status of “Revoked Sex Offender” still be a valid ID according to DPS? Please provide the basis for the response.

RESPONSE: It is valid for identity purposes as long as it is not expired or is within allowable limits of expiration and has not been cancelled due to fraud.

222. Please list and explain all reasons why a card status of “Revoked Sex Offender” could be removed from an ID card record.

RESPONSE: The card status is removed once the customer has complied with statute by applying for an updated card, when the customer is no longer required to comply with registration requirements or when the status was placed on the record in error. This action removes the card status from the basic system view of the record, but the information relating to the addition and removal of this status is maintained in the DLS database tables.

223. When a card status of “Revoked Sex Offender” that was once placed on an ID card record is removed, does the removal of that card status have any effect on whether the ID holder is legally entitled to physically possess the ID card?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

224. Once the card status “Revoked Sex Offender” is removed from a non-expired ID card, would the ID holder be permitted to have physical possession of the ID card?

RESPONSE: Yes, they would be allowed, but the Department cannot state whether or not a person has actual possession of his or her Texas identification card.

225. If physical possession of a driver license as between the ID holder and DPS varies for ID cards that at one time had a card status of “Revoked Sex Offender,” but later had that card status removed, please explain when DPS would possess the ID card versus when the ID holder would possess the ID card.

RESPONSE: There are no variances; the status does not require surrender of the identification card.

226. What does it mean for a Texas ID card record to have a card status of “Voluntary Surrender”?

RESPONSE: This indicates that the customer has chosen to voluntarily surrender the identification card.

227. Please state all reasons why a Texas ID card record could be marked with “Voluntary Surrender” as a card status.

RESPONSE: This status is placed on the card when the customer has chosen to voluntarily surrender the identification card. The Department does not require the customer to tell us why they are surrendering the identification card. As such, it is not possible to state all reasons why a Texas ID card record might be marked with Voluntary Surrender as a card status.

228. When a Texas ID card has a card status of “Voluntary Surrender,” is the ID holder permitted, under all applicable rules and procedures, to retain physical possession of the ID card?

RESPONSE: The card status of “Voluntary Surrender” is entered into the record after the customer has voluntarily surrendered possession of the Texas ID card to the Department. This is merely the documentation in the record of an event initiated by the customer. This does not involve the element of the ID holder being “permitted” to retain possession of the card.

229. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID with a card status of “Voluntary Surrender” is permitted to retain physical possession of the ID card, identify all circumstances in which it would be permissible for the ID holder to retain possession of the ID card.

RESPONSE: None.

230. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID card with a card status of “Voluntary Surrender” is permitted to retain physical possession of the ID card, identify all circumstances in which it would not be permissible for the ID holder to retain possession of the ID card.

RESPONSE: Anytime a customer chooses to voluntarily surrender their identification card.

231. Can an ID currently marked with a card status of “Voluntary Surrender” still be a valid ID according to DPS? Please provide the basis for the response.

RESPONSE: If the identification card is marked with a card status of voluntary surrender and there is no removal date, the card is not valid because the customer chose to surrender the identification card.

232. Please list and explain all reasons why a card status of “Voluntary Surrender” could be removed from an ID card record.

RESPONSE: When the applicant chooses to come in and reapply for an identification card or if it was placed on the record in error.

233. When a card status of “Voluntary Surrender” that was once placed on an ID card record is removed, does the removal of that card status have any effect on whether the ID holder is legally entitled to physically possess the ID card?

RESPONSE: For practical purposes the removal of the card status would result in the reissuance of the identification card; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

234. Once the card status “Voluntary Surrender” is removed from a non-expired ID card, would the ID holder be permitted to have physical possession of the ID card?

RESPONSE: Yes, they would be allowed, but the Department cannot state whether or not a person has actual possession of his or her Texas identification card.

235. If physical possession of a driver license as between the ID holder and DPS varies for ID cards that at one time had a card status of “Voluntary Surrender,” but later had that card status removed, please explain when DPS would possess the ID card versus when the ID holder would possess the ID card.

RESPONSE: If a Texas ID holder has voluntarily surrendered possession of the card then DPS would have physical possession of the card. If the Texas ID holder decides to reinstate the Texas ID then the ID holder would have possession of the card.

236. What does it mean for a Texas ID card record to have a card status of “Voluntary Surrender CSO”?

RESPONSE: Texas statute, Article 62 of the Code of Criminal Procedure, requires individuals to maintain a valid driver license or identification card. When a customer possesses both card types, they sometimes elect to only maintain one card. Placing this status on the 2<sup>nd</sup> card type maintains the record of the 2<sup>nd</sup> card but prohibits the driver license system processes from applying revocation notices and enforcement actions for noncompliance.

237. Please state all reasons why a Texas ID card record could be marked with “Voluntary Surrender CSO” as a card status.

RESPONSE: When the customer has both a Texas driver license and a Texas identification card and they choose to only maintain one card type.

238. When a Texas ID card has a card status of “Voluntary Surrender CSO,” is the ID holder permitted, under all applicable rules and procedures, to retain physical possession of the ID card?

RESPONSE: The card status of “Voluntary Surrender CSO” is entered into the record

after the customer has voluntarily surrendered possession of the Texas ID card to the Department. This is merely the documentation in the record of an event initiated by the customer. This does not involve the element of the ID holder being “permitted” to retain possession of the card.

239. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID with a card status of “Voluntary Surrender CSO” is permitted to retain physical possession of the ID card, identify all circumstances in which it would be permissible for the ID holder to retain possession of the ID card.

RESPONSE: None.

240. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID card with a card status of “Voluntary Surrender CSO” is permitted to retain physical possession of the ID card, identify all circumstances in which it would not be permissible for the ID holder to retain possession of the ID card.

RESPONSE: Anytime a customer chooses to voluntarily surrender their identification card.

241. Can an ID currently marked with a card status of “Voluntary Surrender CSO” still be a valid ID according to DPS? Please provide the basis for the response.

RESPONSE: If the identification card is marked with a card status of voluntary surrender and there is no removal date, the card is not valid because the customer chose to surrender the identification card.

242. Please list and explain all reasons why a card status of “Voluntary Surrender CSO” could be removed from an ID card record.

RESPONSE: When the applicant chooses to come in and reapply for an identification card or if it was placed on the record in error.

243. When a card status of “Voluntary Surrender CSO” that was once placed on an ID card record is removed, does the removal of that card status have any effect on whether the ID holder is legally entitled to physically possess the ID card?

RESPONSE: For practical purposes the removal of the card status would result in the reissuance of the identification card; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

244. Once the card status “Voluntary Surrender CSO” is removed from a non-expired ID card, would the ID holder be permitted to have physical possession of the ID card?

RESPONSE: Yes.

245. If physical possession of a driver license as between the ID holder and DPS varies for ID cards that at one time had a card status of “Voluntary Surrender CSO,” but later had that card status removed, please explain when DPS would possess the ID card versus when the ID holder would possess the ID card.

RESPONSE: If a Texas ID holder has voluntarily surrendered possession of the card then DPS would have physical possession of the card. If the Texas ID holder decides to reinstate the Texas ID then the ID holder would have possession of the card.

246. What does it mean for a Texas ID card record to have a card status of “Returned by Post Office”?

RESPONSE: The post office returned an identification card that was mailed to the customer by the Department.

247. Please state all reasons why a Texas ID card record could be marked with “Returned by Post Office” as a card status.

RESPONSE: See response to question number 246.

248. When a Texas ID card has a card status of “Returned by Post Office,” is the ID holder permitted, under all applicable rules and procedures, to retain physical possession of the ID card?

RESPONSE: The actual card is returned to the Department and destroyed, so possession of that card would not be possible, but the customer could still potentially have possession of the temporary permit or a previous or subsequently issued identification card.

249. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID with a card status of “Returned by Post Office” is permitted to retain physical possession of the ID card, identify all circumstances in which it would be permissible for the ID holder to retain possession of the ID card.

RESPONSE: See response to question number 248.

250. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID card with a card status of “Returned by Post Office” is permitted to retain physical possession of the ID card, identify all circumstances in which it would not be permissible for the ID holder to retain possession of the ID card.

RESPONSE: Since the card was returned by the post office, the customer would not have possession of that particular identification card.

251. Can an ID currently marked with a card status of “Returned by Post Office” still be a valid ID according to DPS? Please provide the basis for the response.

RESPONSE: Since the card was returned by the post office, the customer would not have possession of that particular identification card, but the record and any subsequently issued card would still be valid.

252. Please list and explain all reasons why a card status of “Returned by Post Office” could be removed from an ID card record.

RESPONSE: If it was placed on the record in error.

253. When a card status of “Returned by Post Office” that was once placed on an ID card record is removed, does the removal of that card status have any effect on whether the ID holder is legally entitled to physically possess the ID card?

RESPONSE: For practical purposes there is no effect as the card status is not removed; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

254. Once the card status “Returned by Post Office” is removed from a non-expired ID card, would the ID holder be permitted to have physical possession of the ID card?

RESPONSE: This status is not removed, it is maintained for administrative reasons and to determine the number of times an identification card from a particular transaction has been remade and re-mailed.

255. If physical possession of a driver license as between the ID holder and DPS varies for ID cards that at one time had a card status of “Returned by Post Office,” but later had that card status removed, please explain when DPS would possess the ID card versus when the ID holder would possess the ID card.

RESPONSE: There are no variances, the status indicates the card was returned and destroyed.

256. What does it mean for a Texas ID card record to have a card status of “Items Surrendered”?

RESPONSE: This status is placed on an identification card when the card is surrendered to a law enforcement agency or court and the card was returned to the Department.

257. Please state all reasons why a Texas ID card record could be marked with “Items Surrendered” as a card status.

RESPONSE: See response to question #256

258. When a Texas ID card has a card status of “Items Surrendered,” is the ID holder permitted, under all applicable rules and procedures, to retain physical possession of the ID card?

RESPONSE: The identification card has been surrendered and destroyed, so the customer would not have physical possession of that card, but the customer could still potentially have possession of a temporary permit or a previous or subsequently issued identification card.

259. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID with a card status of “Items Surrendered” is permitted to retain physical possession of the ID card, identify all circumstances in which it would be permissible for the ID holder to retain possession of the ID card.

RESPONSE: See response to question number 258.

260. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID card with a card status of “Items Surrendered” is permitted to retain physical possession of the ID card, identify all circumstances in which it would not be permissible for the ID holder to retain possession of the ID card.

RESPONSE: Since the card was surrendered and destroyed, the customer would not have possession of that particular identification card.

261. Can an ID currently marked with a card status of “Items Surrendered” still be a valid ID according to DPS? Please provide the basis for the response.

RESPONSE: Since the card surrendered and destroyed, the customer would not have possession of that particular identification card, but the record and any subsequently issued card would still be valid.

262. Please list and explain all reasons why a card status of “Items Surrendered” could be removed from an ID card record.

RESPONSE: If the status was entered on the record in error.

263. When a card status of “Items Surrendered” that was once placed on an ID card record is removed, does the removal of that card status have any effect on whether the ID holder is legally entitled to physically possess the ID card?

RESPONSE: For practical purposes there is no effect as the card status is not removed; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

264. Once the card status “Items Surrendered” is removed from a non-expired ID card,

would the ID holder be permitted to have physical possession of the ID card?

RESPONSE: The status is not removed, it is kept for administrative purposes; however, the identification card can be reissued and yes they would be allowed possession, but the Department cannot state whether or not a person has actual possession of his or her Texas driver license.

265. If physical possession of a driver license as between the ID holder and DPS varies for ID cards that at one time had a card status of "Items Surrendered," but later had that card status removed, please explain when DPS would possess the ID card versus when the ID holder would possess the ID card.

RESPONSE: There are no variances, the status indicates the card was surrendered and destroyed.

266. What does it mean for a Texas ID card record to have a card status of "Documents Needed"?

RESPONSE: This status is added to the identification card when it is determined that some type of documentation is needed before the card can be reissued again. The details indicate what information is needed and who to contact for assistance. It can be anything from the need for a particular form to be completed and/or signed or a request for additional documentation related to identity, citizenship, residency, etc.

267. Please state all reasons why a Texas ID card record could be marked with "Documents Needed" as a card status.

RESPONSE: See response to question number 266.

268. When a Texas ID card has a card status of "Documents Needed," is the ID holder permitted, under all applicable rules and procedures, to retain physical possession of the ID card?

RESPONSE: Yes.

269. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID with a card status of "Documents Needed" is permitted to retain physical possession of the ID card, identify all circumstances in which it would be permissible for the ID holder to retain possession of the ID card.

RESPONSE: The customer would be permitted to retain possession of the identification card with this status.

270. If it varies, under all applicable rules and procedures, as to whether or not the ID holder of an ID card with a card status of "Documents Needed" is permitted to retain physical possession of the ID card, identify all circumstances in which it would not be

permissible for the ID holder to retain possession of the ID card.

RESPONSE: None

271. Can an ID currently marked with a card status of “Documents Needed” still be a valid ID according to DPS? Please provide the basis for the response.

RESPONSE: It is valid for identity purposes as long as it is not expired or is within allowable limits of expiration and has not been cancelled due to fraud.

272. Please list and explain all reasons why a card status of “Documents Needed” could be removed from an ID card record.

RESPONSE: Once the customer has complied by providing the document or if it was placed on the record in error.

273. When a card status of “Documents Needed” that was once placed on an ID card record is removed, does the removal of that card status have any effect on whether the ID holder is legally entitled to physically possess the ID card?

RESPONSE: For practical purposes there is no effect; however, I cannot answer to the legal entitlement as it requires legal review and conclusion.

274. Once the card status “Documents Needed” is removed from a non-expired ID card, would the ID holder be permitted to have physical possession of the ID card?

RESPONSE: Yes.

275. If physical possession of a driver license as between the ID holder and DPS varies for ID cards that at one time had a card status of “Documents Needed,” but later had that card status removed, please explain when DPS would possess the ID card versus when the ID holder would possess the ID card.

RESPONSE: There are no variances; the status does not require surrender of the identification card.

## **Topic 16**

276. Please explain how often updates to the data in the card status field are input into the DPS database (e.g., daily, weekly, etc.).

RESPONSE: Daily.

277. Please explain how often updates to the data in the card status remove date field are input into the DPS database (e.g., daily, weekly, etc.).

RESPONSE: Daily. The action to remove a card status by adding a remove/delete date removes the card status from the basic system view of the record, but the information relating to the addition and removal of each status is maintained in the DLS database tables.

**Topic 19**

278. Please identify and explain any and all circumstances in which more than one record is created in the DPS driver license database for the same person.

RESPONSE: The structure of the DPS driver license database dictates that there can be many records in many different tables associated with one person; however, there can be only one person record representing a person. The only way a person could have more than one person record would be if that person failed to reveal that he or she already had a driver license or ID card, either inadvertently or intentionally, and a customer service representative was unable to associate an existing person record with that person. In that case, another person record would be created with a different person identifier.

279. Please identify and explain any and all circumstances in which more than one record is created in the DPS driver license database for the same person with the same driver license number.

RESPONSE: The structure of the DPS driver license database dictates that there can be many records in many different tables associated with one person; however, there can be only one driver license record for the same person with the same driver license number.

280. Please identify and explain any and all circumstances in which more than one record is created in the DPS database of ID card holders for the same person.

RESPONSE: The structure of the DPS driver license database dictates that there can be many records in many different tables associated with one person; however, there can be only one person record representing a person. The only way a person could have more than one person record would be if that person failed to reveal that he or she already had a driver license or ID card, either inadvertently or intentionally, and a customer service representative was unable to associate an existing person record with that person. In that case, another person record would be created with a different person identifier.

281. Please identify and explain any and all circumstances in which more than one record is created in the DPS database of ID card holders for the same person with the same ID card number.

RESPONSE: The structure of the DPS driver license database dictates that there can be

many records in many different tables associated with one person; however, there can be only one ID card record for the same person with the same ID card number.

**Topic 20**

282. Please identify and explain any and all reasons why one person would have more than one record in the July 23, 2014 DPS database extract produced in this case.

RESPONSE: A person would have more than one record in the July 23, 2014 DPS database extract if that person had more than one card status record with a removed date prior to January 16, 2014. There would be one record in the extract for each of these status records.

283. Please identify and explain any and all reasons why persons with records included in the July 23, 2014 DPS database extract would be duplicated anywhere in the DPS database outside of the records included in the July 23, 2014 database extract.

RESPONSE: A person would have more than one record in the July 23, 2014 DPS database extract if that person had more than one card status record with a removed date prior to January 16, 2014. There would be one record in the extract for each of these status records.

**Topic 21**

284. Does DPS ever use its driver license database to calculate the total number of current and valid driver licenses issued (including both personal and commercial licenses)?

RESPONSE: Yes

285. If yes, what fields does DPS use to sort and filter driver license records to determine the total number of current and valid driver licenses issued?

RESPONSE: The fields and the criteria of the data used varies depending on the definition of current and valid. The fields that would commonly be used are card type, license type, expiration date, record status, administrative status and card status.

286. Has DPS ever determined the total number of current and valid driver licenses issued through any method different from any method referenced above?

RESPONSE: No, all reports are created from the driver license system database.

287. If the answer to the question above is yes, please explain any different method that

DPS has used.

RESPONSE: n/a.

288. Does DPS ever use its driver license database to calculate the total number of persons who hold a current and valid driver license (including both personal and commercial licenses)?

RESPONSE: Yes.

289. If yes, what fields does DPS use to sort and filter driver license records to determine the total number of persons who hold current and valid driver licenses?

RESPONSE: See response to question number 285. A driver license is tied to the person record, so the queries would be initiated using the same criteria.

290. Has DPS ever determined the total number of persons who hold a current and valid driver license through any different method than any method referred to above?

RESPONSE: No, all reports are created from the driver license system database.

291. If the answer to the question above is yes, please explain any different method that DPS has used.

RESPONSE: n/a.

292. Does DPS use its ID card database to calculate the total number of ID card holders with current and valid ID cards?

RESPONSE: Yes.

293. If yes, what fields does DPS use to sort and filter ID card records to determine the total number of ID card holders with current and valid ID cards?

RESPONSE: The fields and the criteria of the data used varies depending on the definition of current and valid. The fields that would commonly be used are card type, expiration date, administrative status and card status.

294. Has DPS ever determined the total number of ID card holders with current and valid ID cards through any different method than any method referred to above?

RESPONSE: No, all reports are created from the driver license system database.

295. If the answer to the question above is yes, please explain any different method that DPS has used.

RESPONSE: n/a.

296. Does DPS ever use its driver license and personal ID card database to determine the total number of persons who hold either a current and valid driver license or current and valid personal ID card?

RESPONSE: Yes.

297. If yes, what fields does DPS use to sort and the database records to determine the total number of persons who hold either a current and valid driver license or a current and valid personal ID card?

RESPONSE: See response to question number 293. An identification card is tied to the person record, so the queries would be initiated using the same criteria.

298. Has DPS ever determined the total number of persons who hold either a current and valid driver license or a current and valid personal ID card through any different method than any method referred to above?

RESPONSE: No, all reports are created from the driver license system database.

299. If the answer to the question above is yes, please explain any different method that DPS has used.

RESPONSE: n/a.

300. Does DPS ever use its driver license and personal ID card database to determine the total number of persons who hold both a current and valid driver license and a current and valid personal ID card?

RESPONSE: Yes.

301. If yes, what fields does DPS use to sort and the database records to determine the total number of persons who hold both a current and valid driver license and a current and valid personal ID card?

RESPONSE: The fields and the criteria of the data used may vary depending on the definition of current and valid. The fields that would commonly be used are card type, license type, expiration date, record status, administrative status and card status.

302. Has DPS ever determined the total number of persons who hold both a current and valid driver license and a current and valid personal ID card through any different method than any method referred to above?

RESPONSE: No, all reports are created from the driver license system database.

303. If the answer to the question above is yes, please explain any different method that DPS has used.

RESPONSE: n/a.

\*\* Level of analysis: Block Group;

Dependent variable: Number NO MATCH in Block Group divided by ACS CVAP Estimate in Block Group;

Multiple Regression of Percent CVAP Registered on HCVAP Percent and BCVP Percent; Weighted by CVAP.

\*\*\* Homogeneous block groups are areas in which at least 80 percent of the CVAP is of a given population.
